1. CORPORATE INFORMATION AND PRINCIPAL ACTIVITIES

KazMunaiGas Exploration Production Joint Stock Company (the “Company”) is incorporated in the Republic of Kazakhstan and is engaged in the acquisition, exploration, development, production, processing and export of hydrocarbons with its core operations of oil and gas properties located in the Pre-Caspian and Mangystau basins of western Kazakhstan. The Company’s direct majority shareholder is Joint Stock Company National Company KazMunaiGas (“NC KMG” or the “Parent Company”), which represents the state’s interests in the Kazakh oil and gas industry and which holds 63.21% of the Company’s outstanding shares as at June 30, 2015 (December 31, 2014: 63.21%). The Parent Company is 100% owned by Joint Stock Company Samruk-Kazyna Sovereign Welfare Fund (“Samruk-Kazyna SWF”), which is in turn 100% owned by the government of the Republic of Kazakhstan (the “Government”).

The Company conducts its principal operations through the wholly owned subsidiaries JSC “Ozenmunaigas” and JSC “Embamunaigas”. In addition the Company has oil and gas interests in the form of wholly owned subsidiaries, jointly controlled entities, associate and certain other controlling and non-controlling interests in non-core entities. These consolidated financial statements reflect the financial position and results of operations of all of the above interests.

2. BASIS OF PREPARATION

These condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard No. 34, Interim Financial Reporting (“IAS 34”) and should be read in conjunction with the Company’s annual consolidated financial statements for the year ended December 31, 2014.

These condensed consolidated interim financial statements are presented in Tenge and all values are rounded to the nearest million unless otherwise stated.

Exchange rates

The official rate of the Kazakhstan Tenge to the US Dollar at June 30, 2015 and December 31, 2014 was 186.2 and 182.35 Tenge to the US Dollar, respectively. Any translation of Tenge amounts to US Dollar or any other hard currency should not be construed as a representation that such Tenge amounts have been, could be or will in the future be converted into hard currency at the exchange rate shown or at any other exchange rate.

3. SEASONALITY OF OPERATIONS

The Company’s operating costs are subject to seasonal fluctuations, with higher capital expenditures and expenses for materials and repair, maintenance and other services usually expected in the later part of the year than in the first half of the year. These fluctuations are mainly due to the requirement to conduct formal public tenders in accordance with procurement rules set by Samruk-Kazyna SWF.

4. ACCOUNTING POLICIES

The accounting policies applied in the preparation of these condensed consolidated interim financial statements are consistent with those applied in the preparation of the annual consolidated financial statements for the year ended December 31, 2014, except as discussed below.

The following new standards and amendments to standards are mandatory for the first time for the financial year beginning January 1, 2015:

- IAS 19 Defined Benefit Plans: Employee Contributions (Amendments);
- Improvements to IFRSs 2010-2012 cycle;
- Improvements to IFRSs 2011-2013 cycle;

The adoption of these standards and amendments did not have any impact on the financial position or performance of the Company.

During six months ended June 30, 2015 the Company provided interest free loan in the amount of 9,050 thousand US dollars (1,676 million Tenge) to UGL (six months ended June 30, 2014: 5,000 thousand US dollars or 881 million Tenge). On initial recognition the loan was recognized at the fair value of 2,598 thousand US dollars (481 million Tenge) determined by discounting future cash flows for the loans using a discount rate of 15%. Investments in UGL were adjusted accordingly to recognize effect of discounting.

During six months ended June 30, 2015 the Company extended its expectations regarding repayment of the loans from UGL from 2015-2018 to 2020-2024. Discounting of updated cash flows resulted in decrease of the carrying amount of these loans by 14,141 million Tenge. Effect of discounting was treated by the Company as an increase in investments in UGL. Carrying value of the loans from UGL totaled to 74,887 thousand US dollars (13,944 million Tenge) at June 30, 2015 (December 31, 2014: 141,149 thousand US dollars or 25,738 million Tenge).

17. COMMITMENTS AND CONTINGENCIES

Operating environment

Kazakhstan continues economic reforms and development of its legal, tax and regulatory frameworks as required by a market economy. The future stability of the Kazakhstan economy is largely dependent upon these reforms and developments and the effectiveness of economic, financial and monetary measures undertaken by the government.

Local market obligation and sales

The Kazakhstan government requires oil producers to supply a portion of their crude oil production to meet domestic energy requirements. The price for such supplies of crude oil is subject to agreement with the Parent Company and price may be materially below international market prices. If the Government does require additional crude oil to be delivered over and above the quantities currently supplied by the Company, such supplies will take precedence over market sales and will generate substantially less revenue than crude oil sold on the export market, which may materially and adversely affect the Company’s business, prospects, financial condition and results of operations.

17. COMMITMENTS AND CONTINGENCIES (continued)

Local market obligation and sales (continued)

The Company supplies oil and gas products to the local market by selling to JSC “KazMunaiGas Refinery and Marketing”, a subsidiary of the Parent Company. Prices for local market sales are determined through an annual negotiation process with JSC “KazMunaiGas Refinery and Marketing” and the Parent Company. These prices are finally approved by the Independent Non-Executive Directors of the Company (“INEDs”), as required by the Charter of the Company.

In December 2014 the Company concluded contracts with JSC “KazMunaiGas Refinery and Marketing” for crude oil supply to Atyrau Oil Refinery Plant (“ANPZ”) at 52,000 Tenge per ton and to Pavlodar Oil Refinery Plant (“PNHZ”) at 59,000 Tenge per ton during 2015. On February 11, 2015 the Company received a letter from NC KMG with instructions to reduce domestic prices to 22,400 Tenge per ton for ANPZ and 30,000 Tenge per ton for PNHZ for the 2015 calendar year.

The Company’s INEDs have not agreed to lower the prices, therefore addendums to the sales contracts are not enacted. JSC “KazMunaiGas Refinery and Marketing” has been paying at the rates established in the letter from NC KMG from January 1, 2015 to the date of these financial statements.

The Company’s management made a decision to recognize revenue in the financial statements at the prices set in NC KMG’s letter until actual signing of the addendum to the crude oil sales contract with JSC “KazMunaiGas Refinery and Marketing”.

On June 24, 2015 the Company received a new letter from NC KMG specifying domestic crude oil sale prices for the period starting from 1 July 2015 until the end of the year. According to these instructions the prices for ANPZ will be 24,000 Tenge per ton and 32,000 Tenge per ton for PNHZ.

Russian Federation market obligation

According to an inter-governmental agreement between Kazakhstan and the Russian Federation, Kazakhstan fulfills counter deliveries to the Russian Federation. JSC “KazMunaiGas Refinery and Marketing”, a related party, was determined as an operator and the Company was determined as one of the suppliers through governmental quotas. Based on this inter-governmental agreement in September 2014 the Company has concluded a contract with JSC “KazMunaiGas Refinery and Marketing” to supply crude oil to the Russian Federation. The contract was valid until December 31, 2014 without pre-determined volumes. In March 2015 the Company has concluded an additional contract for 2015. During the six months ended June 30, 2015 the Company has counter delivered 566 thousand tons of crude oil (six months ended June 30, 2014: nil). These supplies are additional to the obligation of the Company to supply crude oil to the local market.

Taxation

Kazakhstan’s tax legislation and regulations are subject to ongoing changes and varying interpretations. Instances of inconsistent opinions between local, regional and national tax authorities are not unusual. The current regime of penalties and interest related to reported and discovered violations of Kazakhstan’s tax laws are severe. Because of the uncertainties associated with Kazakhstan’s tax system, the ultimate amount of taxes, penalties and interest, if any, may be in excess of the amount expensed to date and accrued at June 30, 2015.

The Company’s management believes its interpretations of the tax legislation are appropriate and that the Company has justifiable arguments for its tax positions.

Value-added-tax (VAT) recoverability

As at June 30, 2015 total recoverable VAT related to the Company’s sale of assets to JSC “Ozenmunaigas” and JSC “Embamunaigas” in 2012 is 46,558 million Tenge. The tax authorities have conducted various audits and have repeatedly denied the Company’s requests to have these VAT amounts recognized as recoverable. The Company disagrees with the tax authorities position and has initiated court proceedings.

Upon consideration of the complaint of the JSC “Ozenmunaigas” by the court of first instance, court of appeal and cassation of Mangistau region a positive decision was received. The court rulings have not been complied with by the tax authorities.

Value-added-tax (VAT) recoverability (continued)

On July 28, 2015 the Tax authorities filed an appeal of the court of first instance's judgment to the Supreme court. At the same time as the appeal was filed with the Supreme court the tax authorities issued the JSC "Ozenmunaigas" with a revised notification, backdated to August 27, 2014, of the original tax assessment to only include the amounts of VAT related to the original asset sale, 31,955 million Tenge, as being rejected. The JSC "Ozenmunaigas" has applied to the court on procedural grounds to have this backdated notification dismissed by the court. As at the date of approval of these financial statements a final decision on the revocation of the notification has not been received from the court.

As a result of the complaint by the JSC "Embamunaigas" on January 29, 2015 the Specialized Interdistrict Economic Court of Atyrau region ruled to dismiss the complaint in its entirety. On July 31, 2015 JSC "Embamunaigas" filed an appeal to the Cassation Panel.

Management believes that they will ultimately be successful in each of the above cases and has not provided for any allowances for uncollectability. Based on expectations with respect to the ultimate timing of the receipt of the VAT amounts the receivable has been classified as a long term asset and discounted at 7.93%.

Environment

Environmental regulation in Kazakhstan is evolving and subject to ongoing changes. Penalties for violations of Kazakhstan's environmental laws can be severe. Other than those amounts provided for in provisions (Note 10) management believes that there are no probable environmental liabilities, which could have a material adverse effect on the Company's financial position, statement of comprehensive income or cash flows.

Oilfield licenses

The Company is subject to periodic reviews of its activities by governmental authorities with respect to the requirements of its oilfield licenses and related subsoil use contracts. Management cooperates with governmental authorities to agree on remedial actions necessary to resolve any findings resulting from these reviews. Failure to comply with the terms of a license could result in fines, penalties, license limitation, suspension or revocation. The Company's management believes that any issues of non-compliance will be resolved through negotiations or corrective actions without any material effect on the Company's financial position, statement of income or statement of cash flows.

The Company's oil and gas fields are located on land belonging to the Mangistau and Atyrau regional administrations. Licenses were issued by the Ministry of Oil and Gas of the Republic of Kazakhstan. The Company pays mineral extraction and excess profits tax to explore and produce oil and gas from these fields.

On February 25, 2015 JSC "Embamunaigas" and on July 9, 2015 JSC "Ozenmunaigas" received the extensions of their licenses.
