## Report on review of interim consolidated financial information

To the Shareholders, Board of Directors and Management of “Kazakhtelecom” JSC

### **Introduction**

We have reviewed the accompanying interim condensed consolidated financial statements of “Kazakhtelecom” JSC and its subsidiaries (“the Group”), which comprise the interim consolidated statement of financial position as at 30 June 2024, the related interim consolidated statement of comprehensive income for the three- and six-month periods then ended, interim consolidated statement of changes in equity and interim consolidated statement of cash flows for the six-month period then ended and selected explanatory notes (interim financial information). Management is responsible for the preparation and presentation of this interim financial information in accordance with IAS 34, *Interim Financial Reporting*. Our responsibility is to express a conclusion on this interim financial information based on our review.

### **Scope of review**

We conducted our review in accordance with International Standard on Review Engagements 2410, *Review of Interim Financial Information Performed by the Independent Auditor of the Entity*. A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Building a better  
working world

**Conclusion**

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information of “Kazakhtelecom” JSC and its subsidiaries is not prepared, in all material respects, in accordance with IAS 34, *Interim Financial Reporting*.

**2. BASIS OF PREPARATION**

The interim condensed consolidated financial statements for the three and six month period ended 30 June 2024 have been prepared in accordance with IAS 34 *Interim Financial Reporting*.

The interim condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group’s annual consolidated financial statements as at 31 December 2023 and for the year then ended. The interim condensed consolidated financial statements are presented in Kazakhstan tenge, and all amounts are rounded to nearest thousands, except when otherwise indicated.

**Going concern**

The interim condensed consolidated financial statements have been prepared on a going concern basis. Management believes that there are no material uncertainties that could cast significant doubt on this assumption. In their judgment, it is reasonable to expect that the Group has sufficient resources to continue in operating existence for the foreseeable future and at least for 12 months after the end of the reporting period.

**Foreign currency translation**

The interim condensed financial statements of the Group are presented in tenge, which is the functional currency of the Company and its main subsidiaries. Tenge is the currency of the primary economic environment in which the Company and its main subsidiaries operate. Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

**NOTES TO THE INTERIM CONDENSED CONSOLIDATED STATEMENTS (continued)****2. BASIS OF PREPARATION (continued)****Foreign currency translation (continued)**

Transactions in foreign currencies are initially recorded by the Group's entities at their respective functional currency spot rates at the date when the transaction first qualifies for recognition criteria. Monetary assets and liabilities denominated in foreign currency are translated at the official exchange rate ruling at the reporting date established by Kazakhstan Stock Exchange ("KASE") and published by the National Bank of the Republic of Kazakhstan ("NBRK"). All translation differences are recognized in the interim condensed consolidated statement of comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

Foreign exchange rates are presented in the following table:

	<b>30 June 2024</b> <b>(unaudited)</b>	31 December 2023
US dollar	<b>471,46</b>	454,56
Euro	<b>504,79</b>	502,24
Russian rubles	<b>5,53</b>	5,06

The functional currency of foreign operation KT-IX LLC (Russian Federation) is Russian rubles. During consolidation the assets and liabilities of foreign operation are translated into tenge at the rate of exchange prevailing at the reporting date and its statement of comprehensive income is translated at exchange rates prevailing at the date of the transactions. The exchange differences arising on the translation are recognised in other comprehensive income.

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES****New and amended standards and interpretations**

The accounting policies adopted in the preparation of the interim condensed consolidated financial statements are consistent with those followed in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2023, except for the adoption of new standards effective as at 1 January 2024. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Some amendments will enter into force for the first time in 2024, but have no impact on the interim condensed consolidated financial statements of the Group.

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)****New and amended standards and interpretations (continued)***Amendments to IFRS (IAS) 7 and IFRS (IFRS) 7 – "Supplier Financing Agreements"*

In May 2023, the Council issued amendments to IFRS (IAS) 7 "Statement of Cash Flows" and IFRS (IFRS) 7 "Financial Instruments: Disclosure of Information", which describe the characteristics of supplier financing agreements and contain requirements for the disclosure of additional information about such agreements. Disclosure requirements are designed to help users of financial statements understand the impact of vendor financing agreements on an organization's liabilities, cash flows, and liquidity risk exposure.

The transition rules clarify that the company is not required to disclose information in any interim periods in the year of initial application of the amendments. Therefore, these amendments had no impact on the interim condensed consolidated financial statements of the Group.

*Amendments to IFRS 16 – "Lease obligation under a sale-leaseback transaction"*

In September 2022, the IASB issued amendments to IFRS 16 clarifying the requirements that a seller-lessee uses in assessing a lease liability arising from a sale-leaseback transaction in order to exclude recognition by the seller-lessee of any amounts of profit or loss related to the right of use that the seller retains- the tenant.

These amendments had no impact on the interim condensed consolidated financial statements of the Group.

*Amendments to IFRS (IAS) 1 "Classification of Liabilities as Short-term or Long-term"*

In January 2020, the IASB issued amendments to paragraphs 69-76 of IAS 1, which clarify the requirements for classifying liabilities as short-term or long-term. The amendments clarify the following:

- What is meant by the right to postpone the settlement of obligations;
- The right to defer settlement of obligations should exist at the end of the reporting period;
- The classification of obligations is not affected by the likelihood that the organization will exercise its right to defer settlement of the obligation;
- The terms of the obligation will not affect its classification only if the derivative embedded in the convertible obligation is itself an equity instrument.

In addition, a disclosure requirement has been introduced in cases where the obligation arising from a loan agreement is classified as long-term and the organization's right to defer settlement of this obligation depends on compliance with future covenants within twelve months.

These amendments had no impact on the interim condensed consolidated financial statements of the Group.

**4. SEGMENT INFORMATION**

For management purposes, the Group represents business units based on the organizational structure of the Group and has reportable operating segments as follows:

- Rendering fixed-line telecommunication services by business units of Kazakhtelecom JSC and Vostoktelecom LLP;
- Rendering mobile telecommunication services in GSM and LTE standards by business units of Mobile Telecom-Service LLP and Kcell JSC.

Segment information represents the ongoing activities of the Group. Due to the reclassification of Mobile Telecom Service LLP (MTS) into discontinued operations in 2023 (Note 28), MTS is not included in the mobile telecommunications segment in GSM and LTE standards, as a result, comparative information does not correspond to the issued interim condensed consolidated financial statements for the three and six months ended 30 June 2023, as it does not include discontinued operations.

For the purposes of presenting the reporting segments mentioned above, no consolidation of the operating segments was performed.

**NOTES TO THE INTERIM CONDENSED CONSOLIDATED STATEMENTS (continued)****4. SEGMENT INFORMATION (continued)**

Management monitors operating results of its business units separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with operating profit or loss in the interim condensed consolidated financial statements.

The following tables disclose revenue and profit information for the Group's operating segments for the three and six months ended 30 June 2024 and 2023.

**NOTES TO THE INTERIM CONDENSED CONSOLIDATED STATEMENTS (continued)****21. GOVERNMENT GRANTS (continued)**

In 2021 the Government approved the changes to the Rules for the assignment of frequency bands, radio frequencies, operation of radio-electronic means and high-frequency devices (“the Rules”), based on which the Group is eligible for government grants in form of 90% reduction in the annual fee for use of radio frequencies from 1 January 2020 till 1 January 2025. The government grants are subject to conditions, namely financing of the projects related to broadband internet in rural and urban areas. If the financing of the projects related to broadband internet is lower than the amount of the tax incentive received, the Group should pay the annual fee equal for use of radio frequencies to the amount of unfulfilled obligations to the authorities.

The funds released as a result of reduction in the annual fee for use of radio frequencies for the six months period ended 30 June 2024 in the amount of KZT 15,899,266 thousand were used by the Group for the purchase and construction of certain items of property and equipment (mainly base stations). Government grants related to assets are recognized as deferred income that is recognised in profit or loss on a systematic basis over the useful life of the asset. As at 30 June 2024 the balance of government grants was equal to KZT 29,774,607 thousand (as of 31 December 2023: KZT 40,176,438 thousand), and part of the government grants released to the profit and loss over the period necessary to match the related depreciation charges equal to KZT 3,831,034 thousand.

**Valuation techniques and assumptions**

The following describes the methodologies and assumptions used to determine fair values for those financial instruments which are not already recorded at fair value in the financial statements.

*Assets for which fair value approximates carrying value*

For financial assets and financial liabilities that are liquid or having a short term maturity (less than three months) it is assumed that their fair value approximates to the carrying amount. This assumption is also applied to demand deposits and savings accounts without a specific maturity.

*Financial liabilities carried at amortised cost*

The fair value of loans obtained is measured by discounting future cash flows using rates currently existing for outstanding amounts with similar terms, credit risk and maturity.

**32. COMMITMENTS AND CONTINGENCIES****Operating environment**

In Kazakhstan, economic reforms and the development of the legal, tax and administrative infrastructure that meets the developed markets are still in process. The future stability of the Kazakhstan economy will largely depend on these reforms, as well as on the effectiveness of the Government's actions in the area of economy, financial and monetary policy.

**NOTES TO THE INTERIM CONDENSED CONSOLIDATED STATEMENTS (continued)**

---

**32. COMMITMENTS AND CONTINGENCIES (continued)****Capital commitments**

The Group generally enters into contracts for the completion of construction projects and purchase of telecommunication equipment. As at 30 June 2024, the Group had contractual obligations in the total amount of KZT 69,687,101 thousand, including VAT (31 December 2023: KZT 97,649,118 thousand, including VAT) mainly related to purchase of telecommunication equipment and construction of telecommunication network.

**License commitments**

Under the terms of certain licenses on the provision of wireless telecom services, the Group has certain obligations in terms of coverage area of its network. The Group is obliged to expand the cellular telecommunication coverage to the regions along the major highways and small-sized towns and urban-type communities of the Republic of Kazakhstan. The Group's management believes that the Group is in compliance with the terms of the licenses.

**Taxation**

Tax legislation and regulatory framework of the Republic of Kazakhstan are subject to constant changes and allow for different interpretations. In addition, management believes that international agreements, under which the Group works with non-residents residing in International Telecommunication Union, and which provide for certain tax exemptions, have a priority over national tax legislation. Instances of inconsistent opinions between local, regional and national tax authorities are not unusual. The current regime of penalties and interest related to reported and discovered violations of Kazakhstan's tax laws are severe. Penalties are generally 50-80% of the taxes additionally assessed and interest is assessed at the refinancing rate established by the National Bank of the Republic of Kazakhstan multiplied by 1.25. As a result, penalties and interest can amount to multiples of any assessed taxes. Fiscal periods remain open to review by the authorities in respect of taxes for five calendar years preceding the year of review.

Management believes that it has paid or accrued all applicable taxes. Where uncertainty exists, the Group has accrued tax liabilities based on its best estimate of the probable outflow of resources embodying economic benefits that will be required to settle the liabilities. Possible liabilities that were identified by management at the end of the reporting period as those that may be subject to varying interpretations of tax laws and other regulations are not accrued in these financial statements.

**Government grant related to frequency fee**

The Group has submitted consolidated report on expenditures used to finance broadband projects access to the Internet in urban and rural areas included capital and operational costs that are necessary for the provision of broadband Internet access services in urban and rural settlements throughout the territory of the Republic of Kazakhstan. Management believes that there are no unfulfilled conditions or contingencies attached to these grants. In case if, based on the results of the audited information, the fact of non-fulfillment by the telecom operator of obligations to allocate at least released funds from the reduction of the corresponding fee rate to finance broadband Internet access projects in urban and rural areas is confirmed, the authorized body in the field of communications not earlier than one year after of the year following the reporting year, recalculates the amount of the annual fee for the use of frequency fee for the reporting year, which should be proportional to the unfulfilled volume of financial obligations for this reporting year.
