

Press release

Astana, May 15, 2024

KazTransOil JSC transports 420 thousand tons of Kazakh oil to Germany since the beginning of 2024

From January to April this year, the volume of transportation of Kazakh oil through the Transneft PJSC main pipeline system towards the Adamova Zastava oil delivery point for further delivery to Germany amounted to 420 thousand tons, which is 330 thousand tons more compared to the same period last year.

In May 2024, KazTransOil JSC plans to transport 120 thousand tons of Kazakh oil to Germany.

In 2023, the total volume of transportation of Kazakh oil via this route for delivery to Germany amounted to 993 thousand tons.

This transit is carried out under the framework of the agreement between the Government of the Republic of Kazakhstan and the Government of the Russian Federation dated June 7, 2002.

For reference:

KazTransOil JSC is the national operator of the Republic of Kazakhstan for the main oil pipeline. Part of the JSC NC KazMunayGas group. Owns a diversified network of main oil pipelines with a length of 5.4 thousand km.
